

Amazon VA Interview Cheat Sheet

Amazon VA Interview Lab

General Questions

- "Tell me about yourself" !' Focus on Amazon training, relevant skills, and why this role
- "Why Amazon VA?" !' Show understanding of the Amazon ecosystem and demand
- "How do you handle repetitive tasks?" !' SOPs, checklists, documentation habits
- "How do you prioritize?" !' Urgent vs important framework, client deadlines first
- "What if you make a mistake?" !' Own it immediately, document, communicate, fix

PPC Questions

- $ACoS = \text{Ad Spend} / \text{Ad Sales}$ (lower = more efficient, but context matters)
- $ROAS = \text{Ad Sales} / \text{Ad Spend}$ (inverse of ACoS)
- $CPC \text{ Ceiling} = \text{Price} \times \text{Target ACoS} \times \text{CVR}$
- "When to pause vs negate?" !' Pause = keep keyword but stop spending; Negate = block entirely
- "20 clicks, 0 sales?" !' Check listing, search term relevance, and price before pausing
- "Campaign out of budget?" !' If profitable (low ACoS), increase; if not, investigate first

Behavioral (STAR Method)

- S = Situation (briefly set the scene)
- T = Task (what was your specific responsibility)
- A = Action (what YOU did, step by step)
- R = Result (quantify the outcome)
- Tip: Prepare 5-6 versatile stories you can adapt to different questions

Red Flags to Avoid

- Claiming experience you do not have
- Saying "I can guarantee results"
- Giving yes/no answers without context
- Not asking clarifying questions
- Badmouthing previous clients or employers

Strong Answer Tips

- Use specific metrics and numbers when possible
- Show process awareness (not just outcome knowledge)
- Demonstrate SOP discipline and documentation habits
- Acknowledge what you do NOT know and show willingness to learn

- Always connect your answer to how it helps the client or team
