

SOP-Following Checklist

Amazon VA Interview Lab

Before Starting a Task

- Read the SOP completely before beginning
- Confirm you understand each step
- Ask questions if anything is unclear
- Prepare all required tools and access

During the Task

- Follow steps in the exact order specified
- Do not skip steps or take shortcuts
- Document each action taken
- Flag any deviations or unexpected issues
- Take screenshots of key actions for reference

After Completing the Task

- Review your work against the SOP checklist
- Document the outcome
- Note any improvements for future iterations
- Submit completion report to supervisor
- Update task status in project management tool

Communication Standards

- Send end-of-day update even if no issues
- Flag problems immediately (do not wait)
- Use the team communication channel consistently
- Keep messages clear, concise, and professional
- Document verbal instructions in writing
